Dear Sir or Madame:

This is in reference to a recent inquiry, regarding the authority for the above-referenced radio station to be off the air. Commission records do not indicate that this station has requested FCC permission to remain off the air for any period of time.

Section 73.1740(a)(4) of the Commission's Rules states that:

[in] the event that causes beyond the control of a licensee make it impossible to adhere to the operating schedule of this section or to continue operating, the station may limit or discontinue operation for a period of not more than 30 days without further authority from the FCC. Notification must be sent to the FCC in Washington, D.C. not later than the 10th day of limited or discontinued operation. During such period, the licensee shall continue to adhere to the requirements in the station license pertaining to the lighting of antenna structures. In the event normal operation is restored prior to the expiration of the 30 day period, the licensee will so notify the FCC of this date. If the causes beyond the control of the licensee make it impossible to comply within the allowed period, informal written request shall be made to the FCC no later than the 30th day for such additional time as may be deemed necessary.

Further, the licensee must demonstrate in the request that all steps to resume normal operation are being undertaken in an expeditious and timely fashion.

On December 11, 1991, the Commission adopted a Report and Order (copy attached) which amended Part I of the Commission's Rules, to implement Section 5301 of the Anti Drug Abuse Act of 1988. Pursuant to the Report and Order, applicants requesting Special Temporary Authority to remain silent, are required to certify that neither the applicant nor any party to the request is subject to a denial of Federal benefits under Section 5301.

Accordingly, you are requested to verify that this station is currently operating under the specifications of the station's license. If temporary authority is necessary, your attention is directed to the provisions of Section 73.1740(a)(4). If you do not intend to return the station to the air, you should surrender the license for cancellation. You are advised that failure to file the requested information within 30 days from the date of this letter will result in appropriate action by the Commission to terminate your authority to continue as a licensee.

Sincerely,

**NOTICE TO ASSIGNEE:**

Enclosed is FCC Form 732 notifying you of the Commission consent to the assignment of the construction permit and/or license of the station(s) therein described. Voluntary assignments are required to be completed within sixty (60) days of the date granted.

In addition to filing of the below mentioned FCC Form 323, you are required to immediately notify the AM Branch (8910), by letter, as to the exact date of the consummation; that is, the date on which the acts necessary to effect the assignment were completed. If you are unable to consummate the transaction within the prescribed sixty (60) day period, you are required to contact the AM Branch and request an extension of time to effectuate the consummation; if you decide not to consummate the transaction, you must also notify the AM Branch of this decision immediately. In addition, you must inform the AM Branch if the station(s) involved were silent prior to consummation and are resuming broadcasting after the consummation or if the station will remain silent for a period after consummation.

Within thirty (30) days after the consummation of the assignment it will be necessary for you to submit an Ownership Report (FCC Form 323) reporting all changes as required by Section 73.3615 of the Rules. Where applicable, a separate Ownership Report should also be completed and submitted for any holding company (25% or greater ownership interest) of the licensee/permittee. Contractual information required by Section 73.3613 should be reported for the assignee in item 6, page one of the Ownership Report and copies of each instrument should be submitted with the report. If this is an involuntary assignment that was a result of a death or court action, an Ownership Report must be filed to determine that all requirements of the Rules have been met and reported.

In the event the assignee is the licensee/permittee of another station and has a current Ownership Report on file, you may complete and file only page one of FCC Form 323 to reflect the acquisition of the station(s) listed above. FCC Form 323 is enclosed for your convenience in filing.

It is of the utmost importance that all Commission correspondence comes to the immediate attention of the permittee or licensee. Only one mailing address can be maintained for each station. Unless we hear from you to the contrary, the above address will be used as your permanent mailing address.

If the assignor has any applications pending before the Commission, these applications must be amended to reflect the name of the assignee. Upon consummation of the assignment, amendments to each application must be filed by the assignee, in triplicate, signed by the proper party (see Section 73.3513 of the Rules). Further processing of these applications will be withheld pending receipt of the amendment.
